1. Bruno Leuschner, Chairman of the State Planning Commission, informed the Ministry of Smelting and Ore Mining [redacted] September 1952 that a review of all investment plans had been decreed by the Ministerial Council. He stated that detailed construction material and equipment figures showed that it was necessary to concentrate all means and materials on the readying of plants with the most important production capacities. The appropriation to be applied to this purpose by the Ministry of Smelting and Ore Mining amounted to 600,000,000 DM East for the main installations and 32,000,000 DM for subsidiary ones. 25X1

2. In subsidiary installations, social and health arrangements are to be assured above all. As a rule, only the arrangements which have already been begun are to be completed.

3. Minister Selbmann was requested to re-examine the Ministry's plans in light of the 632 million DM figure and with regard to the decision of the Ministerial Council on 10 September.
